

IFSSH Pioneers of Hand Surgery

*12th Triennial Congress of the
International Federation of Societies for Surgery of the Hand*

New Delhi, India

4th -8th March, 2013

IFSSH Pioneers of Hand Surgery

Traditionally during the Congresses of the International Federation of Societies for Surgery of the Hand, a number of “Pioneers of Hand Surgery” are acknowledged. This is a long standing custom dating back to the 3rd Congress in Tokyo held in 1986.

Since then, 123 physicians have been designated the prestigious title of “Pioneer of Hand Surgery”. To this number, 19 more are added this year.

Every three years, the IFSSH Member Societies nominate Pioneer candidates who are then submitted to the IFSSH Executive Committee and evaluated by the Nominating Committee. During the Opening Ceremony at the next IFSSH Congress these Pioneers will then be honoured. To be considered a Pioneer, a candidate must be a recognised leader in hand surgery and have contributed to the development of Hand Surgery nationally and/or internationally.

Their enormous contribution to Hand Surgery will influence many generations of Hand Surgeons to come. Ultimately or course, their accomplishments will benefit countless patients far into the future.

The IFSSH Membership expresses its sincere appreciation and gratitude to our Pioneers for enriching our passion, Hand Surgery.
